

School Statistics – PP attainment v Non PP attainment

Spring 2

Here is a comparison of attainment data and how children are performing at the end of the Spring 2. The comparison focus's on the percentage of Pupil Premium children against Non-Pupil Premium children and are whole school percentages.

Reading

Working Towards		Working At		Greater Depth	
PP	Non-PP	PP	Non-PP	PP	Non-PP
43%	27%	48%	43%	9%	37%

Writing

Working Towards		Working At		Greater Depth	
PP	Non-PP	PP	Non-PP	PP	Non-PP
54%	30%	46%	53%	0%	17%

GPS

Working Towards		Working At		Greater Depth	
PP	Non-PP	PP	Non-PP	PP	Non-PP
55%	29%	39%	52%	6%	19%

Maths

Working Towards		Working At		Greater Depth	
PP	Non-PP	PP	Non-PP	PP	Non-PP
39%	30%	60%	46%	2%	24%

School Statistics – PP progress v Non PP progress

Spring 2

These progress measures are from the Headstart tests teachers are conducting at the end of every term. Baseline scores were taken in September. As teachers, we use test results as only a 'snapshot' of what the pupils can do. Many aspects contribute to our teacher assessments, these test results are just 1 piece of evidence we use to support our judgements.

Reading:

	PP	Non-PP
Baseline Score	64.32	71.5
Spring 2 Score	96.67	91.34
Average Progress	+32.35	+19.84

Maths:

	PP	Non-PP
Baseline Score	74	80.7
Spring 2 Score	93	98.77
Average Progress	+19	+18.07
