	<p><b>How did Britain change between the end of the Roman occupation and 1066?</b></p>	<p><b>. What is Fairtrade and why should it matter to all of us?</b></p>	<p><b>Why do people decide to resettle (focus on immigration to North America)?</b></p>	<p><b>Why were the Ancient Mayans the envy of the world?</b></p>	<p><b>What are the main features of South America and Brazil in particular?</b></p>	<p><b>What did it mean to be a slave?</b></p>
<p><b>Geography/ History</b></p>	<p>Know why Romans left Britain.</p> <p>Know who the Anglo-Saxons were and how they divided Britain up.</p> <p>Know who the Vikings were and how they battled with the Anglo-Saxons.</p>	<p>Know how different countries trade with each other.</p> <p>To know why Brexit was important to all of us.</p> <p>Understand what people mean by Fairtrade.</p>	<p>Know the main reasons why people would decide to move from the country they lived.</p> <p>Know why immigration has been important to the USA.</p> <p>Know why immigration has been important to the UK.</p>	<p>Know what was happening in Britain when the Mayans were most powerful.</p> <p>Know how different the Mayans and the Egyptian pyramids were.</p> <p>Know how the Mayans belief in gods created a culture of sacrifice.</p>	<p>Know the names of and the key features of south American countries.</p> <p>Use google Earth to find out more about a specific south American country.</p> <p>Focus specifically on one south American country.</p>	<p>Know where slaves come from.</p> <p>Know where slaves were taken to.</p> <p>Know why black people were enslaved. (Transatlantic slave trade and how Britain was part of it).</p>
<p><b>Key Statements</b></p>	<p>Know how many of the words we use today originate from the Vikings or Anglo-Saxons.</p>	<p>Know which counties suffer if there is not a culture of Fairtrade.</p>	<p>Know how people moving into another country often recreate their cultural heritage.</p>	<p>Understand how the pok-ta-pok Mayan game could be described as the earliest football match.</p>	<p>Find out about time zones and how time differs between the UK and south America.</p>	<p>Know about how slaves were treated. (Life aboard transportation ships).</p>

	Know how the Vikings and Anglo-Saxons improved Britain.	Know what is meant by sustainability, global citizenship and ethical codes.	Know about the importance of immigration to Australia.	Know why the Mayans civilization died out.	Know more about the lives of street children	Know about the people that tried to stop slavery.

<b>Geography/ History Objectives</b>	<p>Hi2 Vikings and Anglo-Saxons</p> <p>Pupils should be taught about the he Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor.</p>	<p>Ge2 Fair trade</p> <p>Describe and understand key aspects of human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water.</p>	<p>Ge2 North America</p> <p>Locate the world's countries, using maps to focus on North America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities.</p> <p>Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, and a region within North America.</p>	<p>Hi2 Mayans</p> <p>A non-European society that provides contrasts with British history- Mayan civilization c. AD 900.</p>	<p>Ge2 South America</p> <p>Locate the world's countries, using maps to focus on South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities.</p> <p>Understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, and a region within South America.</p> <p>Know how to use graphs to record</p>	<p>Hi2 Slavery</p>
	<p>Britain's settlement by Vikings and Anglo-Saxons.</p>					

---

						features such as temperature or rainfall.	
--	--	--	--	--	--	--	--

---

<b>Maths</b>	<p>read, write, order and compare numbers to at least 1,000,000 and determine the value of each digit</p> <p>count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000</p>	<p>multiply and divide whole numbers and those involving decimals by 10, 100 and 1,000</p> <p>identify multiples and factors, including finding all factor pairs of a number, and common factors of 2 numbers</p>	<p>multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two-digit numbers.</p> <p>divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</p>	<p>read, write, order and compare numbers with up to 3 decimal places</p> <p>round decimals with 2 decimal places to the nearest whole number and to 1 decimal place</p>	<p>know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles</p> <p>draw given angles, and measure them in degrees (°)</p>	<p>Practise adding and subtracting decimals, including a mix of whole numbers and decimals, decimals with different numbers of decimal places, and complements of 1.</p>
	<p>round any number up to 1,000,000 to the nearest 10, 100, 1,000, 10,000 and 100,000</p>	<p>recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³)</p>	<p>multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams</p>	<p>solve problems which require knowing percentage and decimal equivalents</p> <p style="text-align: center;"> <math>\frac{1}{2}, \frac{1}{4}, \frac{1}{5}, \frac{2}{5}, \frac{4}{5}</math> </p> <p>of those fractions with a denominator of a multiple of 10 or 25</p>	<p>identify: angles at a point and 1 whole turn (total 360°), angles at a point on a straight line and half a turn (total 180°) and other multiples of 90°</p>	<p>Multiply and divide decimals by 10, 100 and 1,000.</p>
	<p>read Roman numerals to 1,000 (M) and recognise years written in Roman numerals</p> <p>add whole numbers with more than 4 digits, including using formal written methods (columnar addition)</p>	<p>know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</p> <p>establish whether a number up to 100 is</p>	<p>read and write decimal numbers as fractions [for example, 0.71 = <math>\frac{71}{100}</math>]</p>	<p>recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per 100', and write percentages as a fraction with denominator 100, and as a decimal fraction</p>	<p>distinguish between regular and irregular polygons based on reasoning about equal sides and angles</p> <p>identify 3-D shapes, including cubes and other cuboids, from 2-D representations</p>	<p>Interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through 0</p> <p>convert between different units of metric measure [for example, kilometre and metre; centimetre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre]</p>

	<p>subtract whole numbers with more than 4 digits, including using formal written methods (columnar subtraction)</p> <p>use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy.</p> <p>solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.</p>	<p>prime and recall prime numbers up to 19</p> <p>identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</p> <p>recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements <math>&gt; 1</math> as a mixed number [for example, <math>\frac{2}{5} + \frac{4}{5} = \frac{6}{5} = 1\frac{1}{5}</math>]</p> <p>compare and order fractions whose denominators are all multiples of the same number</p>	<p>recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</p>	<p>measure and calculate the perimeter of composite rectilinear shapes in centimetres and metres</p> <p>solve comparison, sum and difference problems using information presented in a line graph</p> <p>complete, read and interpret information in tables, including timetables</p>	<p>calculate and compare the area of rectangles (including squares), including using standard units, square centimetres (cm<sup>2</sup>) and square metres (m<sup>2</sup>), and estimate the area of irregular shapes</p> <p>identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed</p>	<p>understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints</p> <p>estimate volume [for example, using 1 cm<sup>3</sup> blocks to build cuboids (including cubes)] and capacity [for example, using water]</p> <p>solve problems involving converting between units of time</p> <p>use all four operations to solve problems involving measure [for example, length, mass, volume, money] using decimal notation, including scaling</p>
--	--	---	--	---	--	--

		<p>add and subtract fractions with the same denominator, and denominators that are multiples of the same number.</p>					
--	--	--	--	--	--	--	--

	7 per half term to make a hot dish and cold dish.					
DT (Food Technology)						

	<p><b>Create a Viking longhouse with clear areas for fire, animals etc.</b></p> <p>Know what a longhouse looks like, including the specific areas within it.</p>	<p><b>Create a rotating planetarium which has gears to show movement around the sun.</b></p>	<p><b>Andy Warhol</b> Printing and painting.</p>	<p><b>Create a Mayan headdress using a range of materials with sewing included.</b></p>	<p><b>Create a Brazilian montage.</b></p>	<p><b>3D clay. Kwame Akoto-Bamfo</b></p>
<p><b>Art/DT</b>  <b>Key Statements</b></p>	<p>Create an initial design, giving particular attention to the roof.</p> <p>Gather the resources needed to make the longhouse.</p>	<p>Know the order of the planets and the distance they are from the sun.</p> <p>Design the system, taking account of the way they will move around the sun and the distance from the sun.</p> <p>Gather the resources needed to create the planetarium.</p> <p>Make the planetarium.</p>	<p>Find out about immigration into the USA. Focus on the book 'The Arrival' by Shawn Tann.</p> <p>Research the work of Andy Warhol and talk to others about his distinctive style.</p> <p>Use sketchbooks to consider ideas especially colours as well as images.</p> <p>Create a final piece linking Warhol's work with immigration to the USA.</p>	<p>Research Mayan headdresses.</p> <p>Design a Mayan headdress that would be representative of the Mayan culture.</p> <p>Gather the resources needed to make the headdress.</p> <p>Make the headdress and make amendments as needed.</p> <p>Evaluate the completed headdress and make suggestions as to how it could be improved.</p>	<p>What symbolism is associated with Brazil? E.g. carnival, redeemer (modern art)</p> <p>Carry out some research about Brazil and capture what the country stands for.</p> <p>Use sketchbooks to capture the flag, football etc.</p> <p>Consider ways of linking ideas together before deciding on final montage.</p> <p>Create a final montage which captures the</p>	<p>Research the work of Kwame Akoto-Bamfo and use sketchbooks to record some thoughts and ideas.</p> <p>Research to find photographs and pictures of slaves and try and capture their anguish.</p> <p>Use the following clip as a tutorial to make a head from a clay ball: <a href="https://www.youtube.com/watch?v=BWXa6ZRssCo">https://www.youtube.com/watch?v=BWXa6ZRssCo</a></p> <p>Use the tutorial to create own clay sculpture.</p>
	<p>Make the longhouse finding solution to any issues as they arise.</p> <p>Evaluate the final longhouse by checking on the original criteria.</p>	<p>Evaluate the planetarium against the original design</p>				

heart of Brazil as a country and culture.

<b>Art/DT Objectives</b>	<p>DT2/1.1a use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups</p>	<p>Ar2/1.1 to create sketch books to record their observations and use them to review and revisit ideas</p> <p>Ar2/1.2 to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials</p> <p>Ar2/1.3 about great artists, architects and designers in history.</p>	<p>DT2/1.1a use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups</p> <p>DT2/1.1b generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design</p>	<p>Ar2/1.1 to create sketch books to record their observations and use them to review and revisit ideas</p> <p>Ar2/1.2 to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials</p> <p>Ar2/1.3 about great artists, architects and designers in history.</p>	<p>Ar2/1.1 to create sketch books to record their observations and use them to review and revisit ideas</p> <p>Ar2/1.2 to improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials</p> <p>Ar2/1.3 about great artists, architects and designers in history.</p>	<p>DT2/1.1a use research and develop design criteria to inform the design of innovative, functional, appealing products that are fit for purpose, aimed at particular individuals or groups</p> <p>DT2/1.1b generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design</p>	
	<p>DT2/1.1b generate, develop, model and communicate their ideas through discussion, annotated sketches, cross-sectional and exploded diagrams, prototypes, pattern pieces and computer-aided design</p>		<p>DT2/1.2a select from and use a wider range of tools and equipment to perform practical tasks accurately</p> <p>DT2/1.2b select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities</p>				<p>DT2/1.2a select from and use a wider range of tools and equipment to perform practical tasks accurately</p> <p>DT2/1.2b select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their functional properties and aesthetic qualities</p>
	<p>DT2/1.2a select from and use a wider range of tools and equipment to perform practical tasks accurately</p> <p>DT2/1.2b select from and use a wider range of materials and components, including construction materials, textiles and ingredients, according to their</p>						

	<p>functional properties and aesthetic qualities</p> <p>DT2/1.3a investigate and analyse a range of existing products</p> <p>DT2/1.3b evaluate their ideas and products against their own design criteria and consider the views of others to improve their work</p>		<p>DT2/1.3a investigate and analyse a range of existing products</p> <p>DT2/1.3b evaluate their ideas and products against their own design criteria and consider the views of others to improve their work</p> <p>DT2/1.3c understand how key events and individuals in design and technology have helped shape the world</p>			<p>DT2/1.3a investigate and analyse a range of existing products</p> <p>DT2/1.3b evaluate their ideas and products against their own design criteria and consider the views of others to improve their work</p> <p>DT2/1.3c understand how key events and individuals in design and technology have helped shape the world</p>

<b>Music</b>	<p><u>Social Question:</u> How does music bring us together?</p> <p><u>Musical spotlight:</u> <b>Melody and harmony in music</b></p> <p>A melody (or tune) is a group of notes played one after another. In music, 'melody' contrasts with 'harmony' (notes played at the same time, like chords). Composers often think of a melody and then add harmony to it. Explore the voices that sing the melodies and the instruments used within the music to create harmonies.</p>	<p><u>Social Question:</u> How does music connect us with our past?</p> <p><u>Musical spotlight:</u> <b>Sing and play in different styles</b></p> <p>Singing and playing in different styles with different grooves is part of being in a band or ensemble. We also learn about music form all around the world. 'Tempo' refers to the speed of the beat (how fast or slow). Sometimes tempos stay the same throughout a song, and sometimes they change. Explore the various tempos of the music.</p>	<p><u>Social Question:</u> How does music improve our world?</p> <p><u>Musical spotlight:</u> <b>Composing and chords</b></p> <p>If we play 3 or more pitches together, we can create chords, which provide the basis for accompaniment in music. By using chords in compositions, really interesting music can be created. Create an accompaniment and learn about chords.</p>	<p><u>Social Question:</u> How does music teach us about our community?</p> <p><u>Musical spotlight:</u> <b>Enjoying musical styles</b></p> <p>There are so many different, wonderful and interesting styles of music. 'Texture' is the layers of sound you hear in a piece of music. Styles of music have different textures. Explore how voices and instruments combine to create texture in music.</p>	<p><u>Social Question:</u> How does music shape our way of life?</p> <p><u>Musical spotlight:</u> <b>Freedom to improvise</b></p> <p>An 'interval' in music refers to the distance between 2 pitches. Some notes lie right next to each other (stepping motion) while others lie further apart (skipping motion). When improvising, use notes that lie further apart.</p>	<p><u>Social Question:</u> How does music connect us with the environment?</p> <p><u>Musical spotlight:</u> <b>Battle of the bands!</b></p> <p>Create a fun and confident performance with your choice of music and songs; small groups or whole class or band. Introduce the music professionally, thinking about what the audience would like to see and hear.</p>

<b>PE</b>	<p>Invasion games Tag rugby</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p>	<p>Invasion games Multi-skills</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p>	<p>Net games</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p>	<p>Basketball and Hockey</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p>	<p>Multi-skills and Netball</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p> <p>PE2/1.1e take part in outdoor and adventurous activity challenges both</p>	<p>Striking &amp; fielding Rounders &amp; cricket</p> <p>PE2/1.1a use running, jumping, throwing and catching in isolation and in combination</p> <p>PE2/1.1b play <b>competitive games</b>, modified where appropriate, and apply basic principles suitable for attacking and defending</p> <p>PE2/1.1f compare their performances with previous ones and demonstrate improvement to achieve their personal best.</p>

<b>Science</b> Key Statements	<b>What do we know about living things and their habitats?</b>	<b>What do we know about Sun, Earth, Moon and the planets?</b>	<b>. What is a force and how does it impact on the way things move?</b>	<b>Which materials can or cannot be changed back to their original form?</b>	Retrieval / Scientists focus	<b>What do we know about the life cycles of humans?</b>
	Know the life cycle of different living things e.g. mammal, amphibian, insect and bird.	Know about and explain the movement of the Earth and other planets relative to the sun.	Know what gravity is and its impact on our lives.  Identify and know the effect of air resistance.	Know what a reversible and irreversible change means.  Give example of reversible and irreversible changes.		Know about the life cycle of a human being.
	Know about the process of production in plants.  Know about the process of reproduction in animals	Know about and explain the movement of the Moon relative to the Earth.  Know and demonstrate how night and day are created.  Describe the Sun, Earth and Moon (using the term spherical).	Identify and know the effect of water resistance.  Identify and know the effect of friction.  Explain how levers, pulleys and gears allow a smaller force to have a greater effect.	Experiment to find which materials can be change back to their original state.  Know that some materials will dissolve in liquid to form a solution and describe how to recover a substance from a solution.  Use knowledge of solids, liquids and gases to decide how mixture might be separated, including		Know what the terms puberty, gestation and reproduction mean.

--

Know information about the planets.

--

--

through filtering, sieving and evaporating.

--

--

--

<b>Science Objectives</b>	<p>Sc/ explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object.</p>			<p>SC/ compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets.</p> <p>Sc/ describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</p> <p>Sc/ know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution.</p> <p>Sc/ describe the life process of reproduction in some plants and animals.</p>	<p>Sc/ describe the movement of the Earth and other planets relative to the sun in the solar system.</p> <p>Sc/ describe the movement of the moon relative to the Earth.</p> <p>Sc/ describe the sun, Earth and moon as approximately spherical bodies.</p> <p>Sc/ use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.</p>	<p>Sc/ describe the changes as humans develop to old age.</p>
	<p>Sc/ identify the effects of air resistance, water resistance and friction, that act between moving surfaces.</p>			<p>Sc/ use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating.</p> <p>Sc/ give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic.</p>		
	<p>Sc/ recognise that some mechanisms including levers, pulleys and gears allow a smaller force to have a greater effect.</p>			<p>Sc/ demonstrate that dissolving, mixing and</p>		

				changes of state are reversible changes.
