

Key Learning

Create a King EdWINNER Self-Portrait

Research the work of Van Gogh and mix paint and sketch to recreate his style

Use sketchbooks to capture some of Van Gogh's unique style and focus on his self portrait

With a partner, consider the dimensions around the face, i.e., where the ears, mouth and nose fit

Create a self portrait that has the features in the correct place and in the right proportion, etc.

Mix paint in the manner that Van Gogh would have done and create a painting.

Vocabulary

Self-Portrait

A portrait of yourself, mainly through the medium of painting, drawing, sculpture or photography.

Post-Impressionist

Van Gogh was not a realist artist, he was a **Post-Impressionist** artist. **Impressionism** artists didn't have a single style or technique.

Oil paint

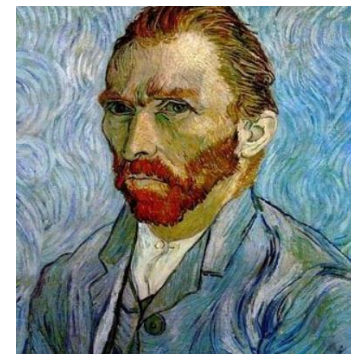

Oil paints are usually used on canvas or thicker boards, but they can also be used on wood, certain metals and ceramics.

Proportion

Proportion refers to the relationship in size and placement between one object and another.

Facial Features

A distinguishing element of a face such as eyes, nose or lips.

Vincent Van Gogh

1853-1890 Dutch

Post-Impressionist artist
