

KEPS Parent View June 25

The results of this survey represent views of 72 families and 171 children in KEPS
The purpose of this survey is to reflect upon current provision and support future school improvement

1. Happy children

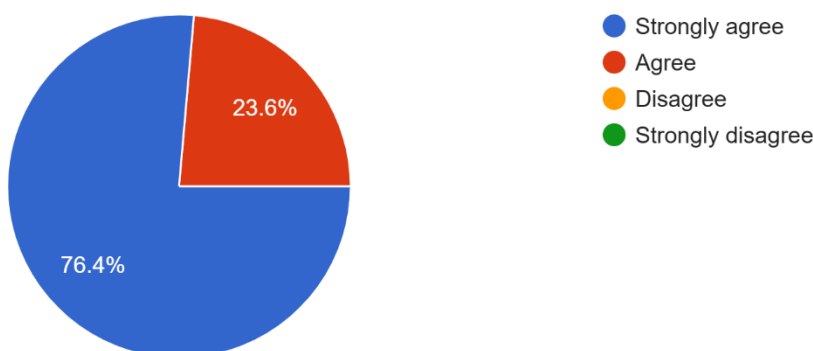

My child is happy at school

Over three quarters of respondents strongly agree that their children are happy in school

2. Feeling safe in school

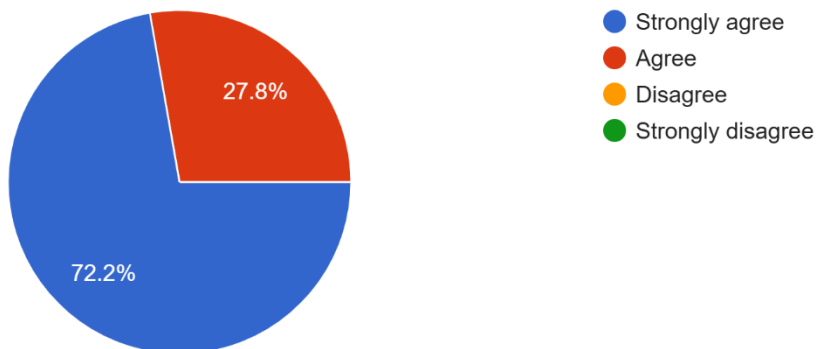

The children feel safe in KEPS

It is pleasing to see that so many of our parents state that their children feel safe in school. With over 75% of respondents strongly agreeing, we must feel very positive about this response.

3. Behaviour

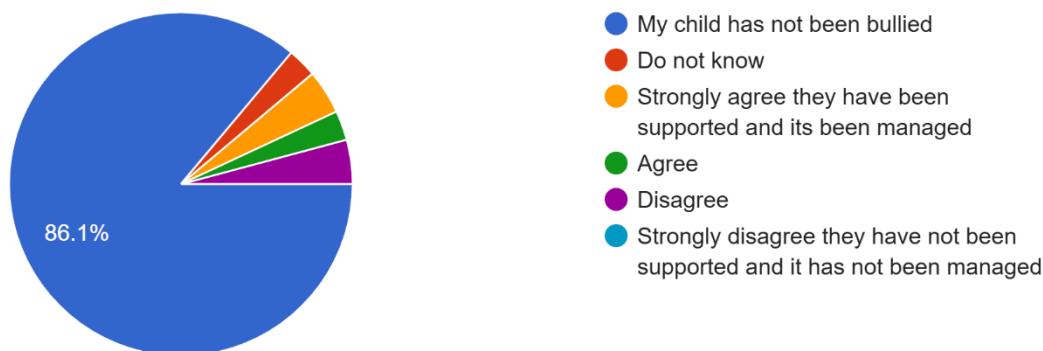

The school enables, supports and encourages children make good behaviour choices

It is fantastic to see that all respondents agree and 72% strongly agree that behaviour is good at KEPS. It is important to note that the school very much recognises behaviour as communication. Child that may struggle with behaviour choices at times are typically supported to regulate and understand the consequences of choices. This result is almost exactly the same as our previous 2024 response.

4. Bullying

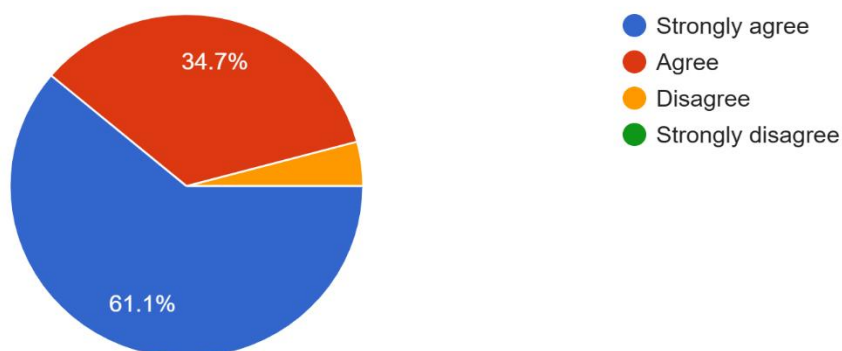

My child has been bullied and the school dealt with this efficiently, effectively and appropriately

This is always an interesting question as the term bullying is very often interpreted differently by people. The vast majority of parents state their child has not been bullied and for those that hold the perception that the child has been impacted by bullying, they state that this has been managed efficiently, effectively and appropriately.

5. Learning and progress

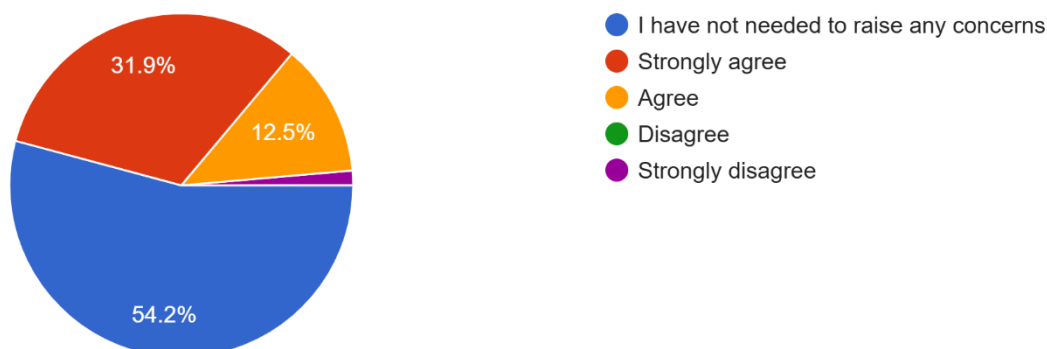

The school and teachers make me aware of what my child is learning/progressing over the year

Almost 96% of families have responded positively.

6. Concerns dealt with properly

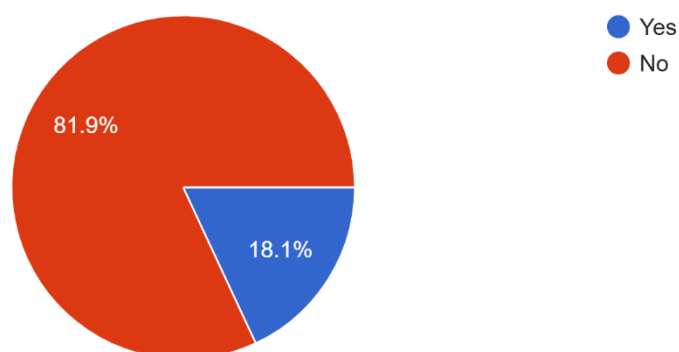

When I raise concerns the school has or will deal with them properly/appropriately.

A very positive response suggests that we manage concerns appropriately. Only one negative response was given. It is very positive to see that the overwhelming majority of respondents either haven't need to raise concerns or believe that concerns will be dealt with appropriately.

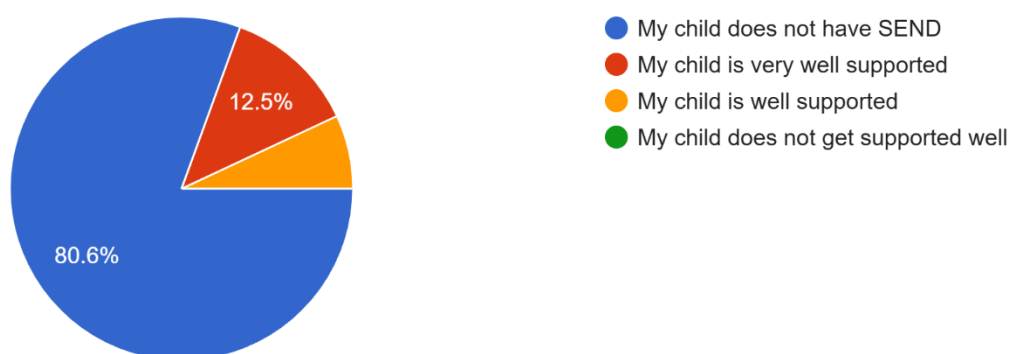

7. **SEND support**

Does your child have special educational needs and/or disabilities (SEND)?

8. **High expectations**

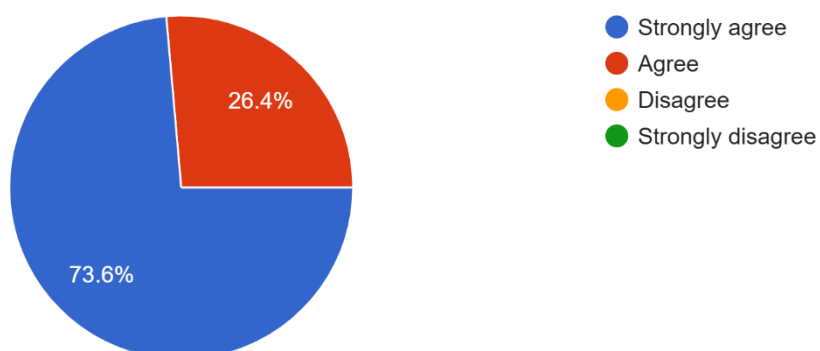

My child has SEND, and the school gives them the support they need to succeed.

All parents state that their child is at least well supported. This is something to be very proud of as we have worked hard to engage with all families that have children with SEND.

9. **High Expectations**

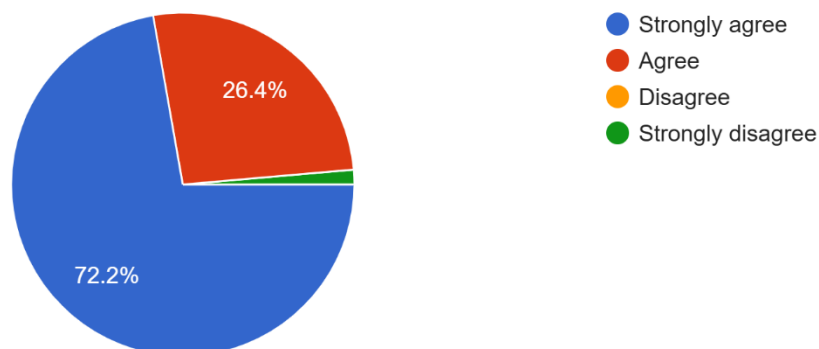

I believe KEPS has high expectations of my child and helps the children to be KingEdwinners

The response to this question was extremely strong and there has been a further consolidation in 'strongly agree' responses since our previous survey. To have almost 74% of families stating that they strongly agree and all families suggesting that the school has high expectations of the children is great to see.

10. Children do well

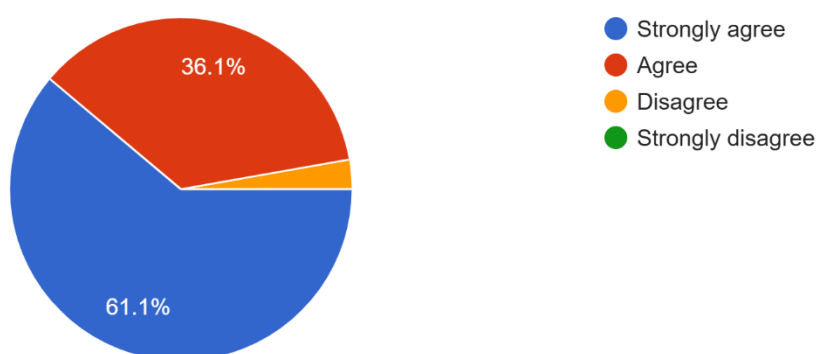

I feel that my child does well at KEPS

The response to this question was extremely strong. Many families 'strongly believe' that their children do well at KEPS.

11. Communication

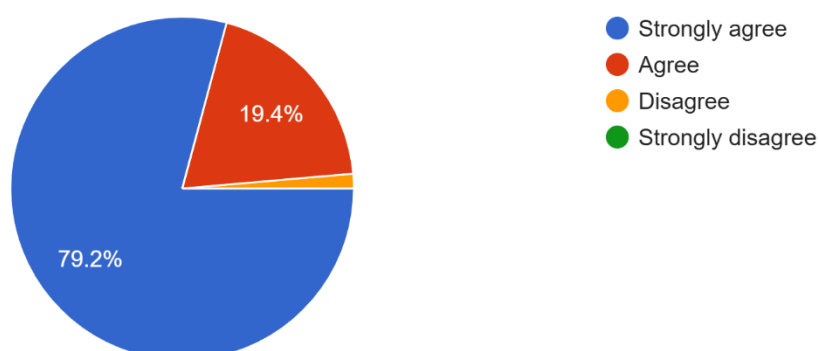

The school communicates well with parents and the community

It is pleasing that so many parents have offered so many 'strongly agree' responses. There has been a deliberate reduction in communication in the past 4 months. This has been received well by all parents.

12. Range of subjects

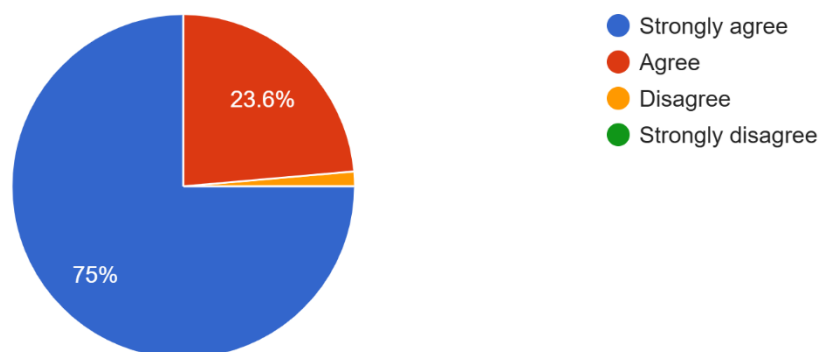

There is a good range of subjects/opportunities for my child at this school

The curriculum offer is excellent at KEPS. Our Forest School provision is very popular and the range of subjects covered is comprehensive.

12. Clubs

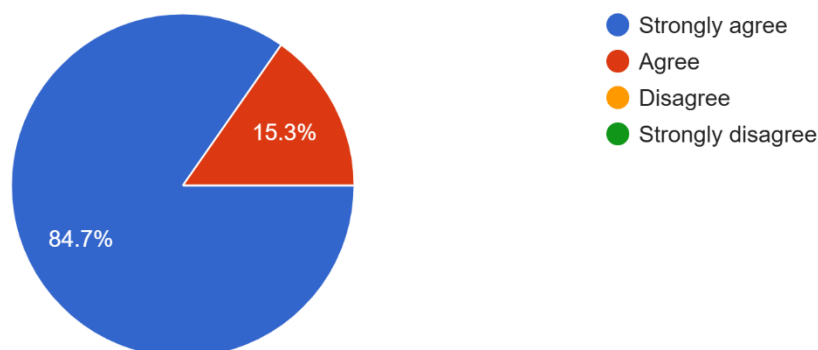

There is a range of clubs and activities at this school

A review of extra-curricular clubs in local schools shows that KEPS delivers an extensive offering.

13. Recommending KEPS

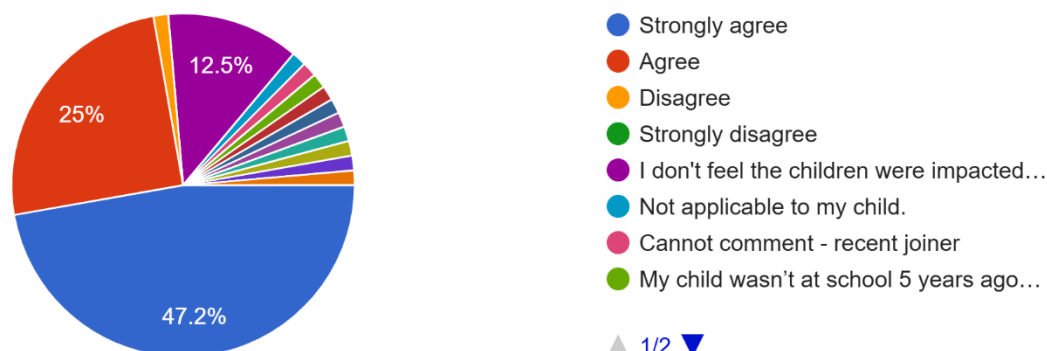

I would recommend this school to another parent

Almost 85 % of parents strongly agree with this statement and 100% agree. This shows that we have strong support from our KingEdwinner families. This is even higher than in 2024.

14. Covid Pandemic Recovery

The global pandemic posed a significant challenge for everyone at KEPS. We have been working hard to stabilise our school community and return to a new sense of normality. Would you agree that KEPS has helped children to recover and move on or forwards from the disruption of the pandemic?

The majority of responses to this question are very positive with only 1 negative. There are more families that now feel that Covid has not impacted them as a family.
